

Mind Map Swap

How to Play:

1. Open a google doc- Name it 'Mind Map Swap-yourname' and share it with all the class members.
2. Next you are going to come up with a subsection of the agriculture industry- for example- dairy goats. Put your sub section as a heading for your document.
3. Next under your heading I want you to brainstorm 3 products that come to mind.
4. Then I will assign who you will share your document to.
5. Once you receive a new document- you are then going to add to it- brainstorm 3 more ideas to add value to what they have or 3 more products!
6. We will do this process a few times and then we are going to discuss each document.
